Bussia, Turkey, Austria, and England.

CONSTANTINOPLE, February 14.—The British fleet passed through the Dardanelles at 3 o'clock Wednesday afternoon. The Turkish Government concluded that

mere protest meets the necessities of the situation. The Russians still declare that they will enter the city, and fears of a control of Broad between First and Second streets. Apply to siderable disturbance, should they do so, are now entertained. The destination of the fleet is said to be Prince's Islands, in the sea of Marmora, thirteen miles south of Constantinople, which, it is reported, England intends to occupy.

London, February 14.—The Standard announces that the Transport Department

has commenced negotiations with large Iso-tors for the immediate delivery, if required, of a considerable quantity of provisions

The Independent Liberal members have formed a committee to watch the progress of the Eastern question and prevent the Government from drifting into war. The movement has already received thirty adhesions. The Conservative committee which was to meet at the Carleton Club yesterday to organize to support the Government have summoned a meeting at the Carleton to-day.

The Standard's Vienna correspondent

says the Russians are provided with a numher of torpedo-boats at Rodosto, and intend to insist on closing the Bosphorus as a preliminary condition to the granting of the firman for the passage of the Dardanelles.

Russia maintains an expectant attitude,

and has taked measures for the advance of part of her troops now before Constantinople as soor as any foreign men-of-war enter the straits. The entrance of troops is not intended as an act of hostility, but anxiety is felt lest an accidental collision might occur. If the troops enter, it is thought the Sultan will retire to Broussa. In that event it would be extremely difficult to reestablish even the shadow of Turkish rule in Europe. The Turkish Government does not for the present desire such a radi-

cal solution of the question.

London, February 14.—The Vienna correspondent of the Times says: "The excitement here is daily increasing at the turn Eastern affairs are taking, and the excitement in Hungary is even greater." The Government organ maintains that

Russia has broken her word, and Austro-Hungary will be compelled to march to war with England in order to force Russia to be faithful to her promise and return to her former programme. The Daily News's Vienna dispatch says .. While the Hungarian papers are warlike,

the Austrian independent press demands The following appeared in Count Andrassy's organ, the Pesther Lloyd, this morning:

the foremost and most weighty interest of Europe, and if Russia understands by requiring her freedom of action that she has of the the right to hoist the Czar's flag of victory in the Bosphorus, then it is time for the Powers to abandon their different categories of neutrality, and an end must be put to the policy of accomplished fact. The occupation of Bulgaria and the exaggerated extension it is proposed to give that province will never be tolerated by Austria. Action, and energetic action alone, can now save Europe." The Times's leading editorial article says :

"Russia has incurred a grave and needless responsibility, and she will have to give guarantees to Austria, as well as to England, that she will quit Constantinople, if she should fulfil her rash intention to occupy it with troops."

LONDON, February 14.—The Paris correspondent of the Times telegraphs: "It is believed in competent quarters that matters will be arranged peacefully. A letter from St. Petersburg affirms that the Russians on entering Constantinople will promise to resume their present positions on the assembling of the Conference. It is known that Germany, within the last few days, has Germany, within the last few days, has urged moderation on Austria."

The Wisdom of Moses. [Rev. Dr. Lilienthal, of Cincinnati.]

After having, in his farewell address, contained in Deuteronomy, warned his people against all forms of idolatry; and hav-ing time and again impressed on them the duty of a moral life, he closes his paternal admonitions with the words of our text: The secret things belong to the Lord our God." which, transcribed in modern words, mean, We do not know how the future life is constituted.

The Mosaic books contain three words which forever reconcile it with every possible progress of science and civilization. They are, "In the beginning God created heaven and earth"—In the beginning. When and how this beginning was neither science nor theology will ever be able to answer. It is one of the questions which will burn like the thornbush that is never

And the second word is the answer to the question, What is God? "Iam what I am!" Let modern science, with its theory of evolution and struggle for existence, advance as far as its praiseworthy researches may allow, it will be ordered to stand still for a final cause which underlies the whole derelopement, and no better name can be given to that final cause than "I am what I am." which again translated into our modern mode of expression means: The finite man can never grasp and understand the
